

J. Morgan Futch Game Land

2025-2026 Management and Blind Locations

As of June 17, rice in the impoundment with blinds 8 and 9 and rice at blind 21 have been planted. Egyptian wheat north of blind 15, the strip north of blind 18 and at blind 21 has been planted. Other millet, rice, and Egyptian wheat have not been planted. It is our intention to plant these once the fields dry. The corn and soybean fields are part of a Co-Op farm. Most of the corn and beans will be harvested leaving a portion along each ditch.
