

CWD TESTING INSTRUCTIONS

1. Obtain your CWD Sample Tag and bag from inside freezer.
2. Fill out the CWD Sample Tag completely.
3. Remove the head and 3-5 inches of the neck. Remove antlers if present.

4. Cut a slit in the ear. Attach the sample tag to the ear.

5. Place head in bag, tie bag up and place in freezer.

To view test results, visit: ncwildlife.org/IGotOne. You will only be contacted by the N.C. Wildlife Resources Commission if your deer tests positive for CWD.

Results will be linked to the Harvest Authorization Number written on your big-game harvest report card. Shipping and processing times at the lab can vary, so please allow several weeks for test results to appear.

Visit ncwildlife.org/CWD for more information
